CITY AND COUNTY OFFICIAL PAPER.

Fresh Ranch Butter from the ranch of J. R. White at Wolford's Cash Store 3.75

EVERY prominent Republican in the Territory having denied the authorship of the Republican platform, it is now in order for Frank Pixley to deny the charge. It sounds very much like one of his editorials.

If New Mexico wants statehood she should import some Arizona talent to draw up a constitution that will be popular. We could spare a few of our would-be lawmakers after November 6th and will run them out at a reasonable rate.

BECAUSE Mark Smith has not been jumping up and down in Maricopa county for the past month, the Phoenix Republican calls him "Arizona's Idle." Never mind, sonny, he'll be there, and after the returns come in next month, you'll think he is "Arizona's Idol."

MR. CHEYNEY'S managers have entered upon a new tack, that of accusing Mark Smith of stirring up race prejudices. Well, that is good. So has the PROSPECTOR been stirring up race prejudices. So did the signers of the Declaration of Independence. So did the men who drew up the constitution of the United States. This country has tied to this "stirring up of race prejudices" for over 100 years and the people intend to tie to it for another century, not by forcing these "prejudices" upon the people as our forefathers did by the shedding of blood, but by the ballot. Your friends are sorry to sit down on your un-American ideas but it is a duty which even a man in far off Arizona feels to be incumbent upon him, Mr. Cheyney.

THE Tombstone PROSPECTOR has carried the planks of both parties for some time but there doesn't seem to have been any dinero from either side of the house. The PROSPECTOR's burro must be getting weary—Citizen.

So you have joined the army of campaign buzzards, have you Mr. Citizen? And cannot see any good to come from a course except for revenue only. Although we are not mixing our fingers up in your brain matter, we cannot but reflect that if you would carry both platforms and both tickets for nothing it would be preferable to running "dead advertisements" all the year around.

JENKS' DREAM.

Jenks had a queer dream the other night. He thought he saw a prize-fighter ring, and in the middle of it stood a doughy little champion who met and deliberately knocked over, one by one, a score or more of big, burly-looking fellows, as they advanced to the attack. Giants as they were in size, the valiant pugilist proved more than a match for them. It was all so funny that Jenks woke up laughing. He awoke for the dream by the fact that he had just come to the conclusion, after trying anxiously every big, drastic pill on the market, that Pierce's Pleasant Purgative Pills, or "Sugar-coated" Purgative Pills, were the original and only genuine Little Liver Pills.

SICK HEADACHE.

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pills. They are gently laxative, and strongly cathartic, according to one of dose. Smallest, cheapest, fastest to take. 25 cents a trial, by druggist.

REPUBLICAN PLATFORM.

1. The Republican party of the Territory of Arizona announces its firm adherence to the principles of the Republican party of the nation, which have been so triumphantly vindicated in preserving the Union and in promoting the welfare and prosperity of the people of the United States of America.

2. As Republicans we express our admiration of the high personal character of President Harrison in his administration of the affairs of the nation, and we congratulate Republicans generally upon the success of an administration of the affairs of the people which has so signally promoted the prosperity of the country at home and abroad, and which has secured for it the profound respect of the nations of the world.

3. The Republican party, founded upon the largest liberty of the citizen, insist that the elective franchise must be secured to the citizens in every State shall be regarded with the sanctity that the Constitution, with its amendments, imposes, and it enthusiastically affirms the doctrine that the votes of the electors in Congressional elections in all the States shall under proper Congressional legislation be freely cast and honestly counted.

4. Congress in its wisdom has arisen to the financial demands of the country and has provided a system of coinage of silver to meet the present financial emergencies of the people, and we most insist, as a party, that an enlarged financial and industrial prosperity shall further be secured by the free coinage of silver.

5. The governing power of the people under Territorial restrictions is limited and unsatisfactory. The growth of the Territory of Arizona, its wealth and resources, as well as the necessities of our citizens, require the early recognition of our Territory as a State and we assert it to be the duty of the

Republican party of Arizona to exert all its activity and energy in promoting the early admission of the Territory into the sisterhood of States.

6. The history of the Mormon church in the United States means an ecclesiastical control that has ever been aggressive, exacting and tyrannical and whose boast has ever been that the Mormon church and people do not and will not assimilate with the people of our country; whose dominating tenet is polygamy; whose doctrine is to segregate its people from all others in their affairs; who vote as one man under the dictation of its priesthood and only for those who can be used for its base purposes; that as a people they are un-American and disloyal, and that for less reasons than these the Chinese have been refused citizenship and are excluded from our country; that the Mormon element in our midst is constantly increasing; that the evil of their lives is a blot upon the good name and fair fame of our Territory, and that if we allow this vice to continue we can hope to harvest from it only evil; and, therefore,

We, the Republicans of Arizona, in convention assembled, do hereby demand of Congress that before it adjourns it shall pass the bill now pending before it, known as an Act for the "Purification of Elections in Arizona."

7. We urge upon Congress the immediate necessity of remedial legislation toward relieving the settlers upon the public domain in this Territory from the detrimental effects of the operation of the provisions of the Arid Land bill of October 3, 1888.

8. That the travel and traffic of our people in the Territory demand the attention and favorable action of Congress in facilitating legislative aid for the construction of a north and south railroad, so that our growing agricultural and mining interests shall have those advantages of transportation commensurate with our ever increasing and active industries.

9. The bulwark of American liberties is our free school system, and the Republican party, resting as it does upon the broad intelligence of the people, demands their careful and judicious supervision, and requires liberal legislation for the promotion and conduct of our Territorial school system.

10. Taxation for Territorial, county and municipal purposes should not be predicated upon a principle of furnishing a living for public officials who seek office, but should be restricted absolutely to a just compensation for actual services rendered, and we sincerely deprecate and shall resist the growing tendency of our Territory to increase the burdens of the tax-payers beyond the actual necessity of providing for a fair remuneration for honest and efficient public servants, and we believe it to be the duty of the Republican party to address itself forthwith to diminishing taxation by cutting off all needless offices and reducing public expenditures to the lowest point consistent with an honest and efficient administration of the laws.

11. The principles of Republicanism require the party to foster and encourage every industry which tends to give vitality and prosperity to the whole Territory by a wise, judicious legislation, whereby the interests of labor and capital shall be equally protected.

12. The defalcations which have arisen in this Territory in the accounts of the Democratic officials appointed to office under Democratic rule should inspire the people of the Territory with gravest caution in again entrusting the powers of the government to officials elected or appointed by the Democratic party or its rulers, and we direct the attention of the tax payers and the people at large to the deficit of \$5,700 in the account of the Democratic Commissioners of the Territorial prison; to the large unadjusted balance due to the Territory from the late Secretary Bayard in the administration of his office; and to the appalling deficiency in the accounts of Fred W. Smith, late Receiver in the United States Land Office, at Tucson, and to the serious injuries and embarrassments resulting therefrom to the settlers upon our public lands.

13. We as a party place our candidates before the electors of the Territory of Arizona with the full belief in their integrity and in their capacity to perform the duties of the offices for which they have been respectively nominated, and we invoke a fair and impartial judgment from the people upon the principles announced by the party, and not only pledge the party but the candidates as well to persistent effort in successfully establishing the principles here set forth.

Republican County Platform.
 The Republican party of Cochise county in convention assembled, declares the principles as follows:
 First—Believing that the true interests of the nation are best subserved by the principles of the Republican party, we hereby desire to place ourselves in accord with the party of the nation and fully endorse the administration of President Harrison.

Second—Recognizing the fact that the Republican Territorial convention which convened in Phoenix on the 28 of August, was composed of the representative men of the party and that in their enunciation of principles, they voiced the sentiments of the party in Arizona, we heartily concur in their action and endorse in its entirety the platform adopted by the convention.

Third—Whereas our Territory, for a long term of years has been harassed, our relatives and neighbors ruthlessly murdered by the wily and treacherous Apache, rendering the enjoyment of life and property precarious and retarding the material advancement of our territory, the late action of the military in hunting

down and preventing the murderous raids of our hereditary enemies, thereby securing to us peace and a feeling of security to which we have been strangers for years, is grateful to our people and this convention desires to tender its thanks to the military for their action.

Fourth—Mercy, and a desire to relieve suffering being considered the grandest tributes of human character this convention characterizes as inhuman that section of what is known as the "hospital law," preventing the extension of public relief to alien sufferers, and hereby pledges the candidates for the legislature for the repeal of that law.

Fifth—Our taxpayers having been for a number of years compelled to endure a high rate of taxation, this convention points to the fact that by reason of the late administration of our affairs during the past two years the rate of taxation in Cochise county is now lower than it has been for a long term of years and this convention pledges its candidates to an economical administration of affairs.

Sixth—For an almost uninterrupted term of ten years Arizona has been represented in the halls of Congress by men of the Democratic party and they leaving in that time accomplished nothing for the benefit of our Territory, we charge them with incompetency and believe that the time has arrived when we should make a strong and united effort to change the political complexion of our representative in congress and as joint councilman from the southern district, therefore resolved that this convention do heartily endorse and ratify the nomination of Hon. Geo. W. Cheyney for delegate to congress, and Hon. W. F. Nichols as joint councilman, and pledge the honor of this convention and the Republican party of Cochise to do all in their power to secure their election.

DEMOCRATIC PLATFORM.

The Democrats of Arizona in convention assembled, reaffirm their allegiance to the Democratic party and reassert the principles announced in repeated national conventions and continue in its time honored traditions.

We demand that we be relieved from the tutelage of a Territorial form of government and that we be admitted to Statehood. We are taxed as American citizens, but are not allowed representation or a vote in making the laws that shall govern us. Until that time, we demand of Congress that home rule which shall allow us to elect all of our executive, legislative and judicial as well as our county officers, these officers expend the money we appropriate and pay in taxes and administer the statutes we enact and we should be allowed to choose those who shall execute them.

Of our own Legislature we demand the abolition of all useless offices, particularly the offices of Attorney General, Commissioner of Immigration, Superintendent of Schools and Territorial Geologist, and a reduction of salaries and emoluments of the rest, wherever practicable.

And we demand a consolidation of county offices, to the end that the fees and emoluments taken from the people may be decreased and that taxation may be reduced to the lowest possible point.

The Republican party in this administration has shown its inability to govern successfully. Under ambitious and selfish leaders, careless of the ruin that is being wrought to the Republic, a despotic Speaker, supported by his party, disregards unbroken precedents and makes himself the master instead of the servant of the House. Under his lash the taxes found necessary during the war were increased, free coinage of silver defeated and a force bill carried which will give to the military control over elections. We denounce this bill as un-American and un-democratic, as it destroys all hope of free elections. The surplus has been recklessly voted away, until now a deficiency looks us in the face.

We favor the continuation of the Chinese Restriction act.

We favor free and unrestricted coinage of silver.

We favor a reduction of taxation and tariff for revenue only.

We commend the course of our Delegate in Congress, and particularly his opposition to all legislation in favor of land grants, and his opposition to the proposed "Land Grant Court Bill."

We oppose any legislation to disfranchise any citizen, except it be on conviction of crime.

We demand the repeal of Section 6, Act No. 41, of March 21, 1889, prohibiting any but American citizens receiving the benefits of public charity.

Democratic County Platform.
 That we endorse and reaffirm the platform adopted at Phoenix by the late Democratic Convention of the Territory.

Be it resolved that the Democratic party of Cochise county, demand of their representatives in the legislature that they use all possible and necessary means to cause the government of the United States to disannul the Indians upon the reservation in our Territory, and to keep them confined within the limits of said reservation, to the end that our people may have protection from their murderous raids and continuous depredations upon the surrounding country.

And to further use their influence to have them ultimately removed to the Indian Territory, or elsewhere, to the end that our people may be relieved from continuous apprehension of Indian outbreaks accompanied by destruction of life and property.

Resolved that we demand the immediate repeal of an act, No. 43 of the legislature of '89 entitled an act to define and fix the qualifications of officers, employees, and servants of the public institutions of the Territory of Arizona as being wholly at variance with the spirit of our institutions.

Resolved that we earnestly recommend to the legislature that it formulate and enact some law to require the attendance of all children between the ages of seven and fourteen years to our public schools or some other educational institution.

Democratic Central Committee.
